MANAGER'S OPINION

Excellent English skills, communicative and very motivated to obtain position in the security industry in Ireland. Currently staying in Poland and looking for work in UK or Ireland through recruitment agencies and individually. Enthusiastic personality and target driven character. He was the most interested candidate of all we recruited. Called our office on a regular basis to make sure there is a progress in his security screening. I believe Bartosz will stand for a honest and loyal employee. He has little work experience, however this should be treated more as an asset, as Bartosz is well educated and just starting his professional career.
